

Mario Arsyad

Data Engineer | Business Intelligence Specialist

+62 851-5651-5115 | marioarsyad24@gmail.com | linkedin.com/in/mario-arsyad | South Jakarta, Indonesia

PROFESSIONAL SUMMARY

Data Engineer at IBM with 3+ years of experience building enterprise-grade Business Intelligence solutions for FMCG and supply chain clients across Indonesia. Core specialization in Power BI semantic modeling, advanced DAX development, medallion data architecture (Bronze-Silver-Gold), and ETL pipeline design. Delivered end-to-end analytics platforms for enterprise clients including Coca-Cola Europacific Partners and Kapal Api Group, with scope spanning sales monitoring, marketing campaign performance, and executive KPI dashboards. Experienced in implementing multi-tier Role-Level Security (RLS), time intelligence measures, and AI-augmented BI development workflows using MCP server integration.

CORE COMPETENCIES

BI & Visualization: Microsoft Power BI (Advanced), Tableau, AWS QuickSight, DAX, Power BI Semantic Modeling, PBIR

Data Engineering: ETL/ELT Pipelines, Medallion Architecture, Data Modeling (Star Schema, Snowflake Schema)

Databases & Cloud: Microsoft SQL Server, AWS Redshift, AWS SageMaker, Google Cloud

Programming: Python (pandas, automation), SQL (Intermediate), DAX (Advanced)

AI & Automation: MCP Server Integration, Claude Code, IBM watsonx, Prompt Engineering, LLM-Augmented Development

Security & Governance: Row-Level Security (RLS), USERPRINCIPALNAME() Dynamic Access, Role Hierarchy Design

PROFESSIONAL EXPERIENCE

Data Engineer — IBM Consulting Indonesia

May 2025 – Present · South Jakarta, Indonesia

- Architected and delivered 5+ enterprise Power BI dashboards covering Sales Performance and Operations/Supply Chain domains for major FMCG clients, implementing star schema data models on SQL Server with automated data refresh pipelines.
- Designed medallion architecture (Bronze to Silver to Gold layers) as the analytical data foundation, enabling clean, business-ready datasets consumed directly by Power BI semantic models.
- Developed advanced DAX measures including time intelligence suites (MTD, YTD, Year-over-Year comparisons), dynamic Top N analysis across 5-level product hierarchies, and KPI achievement tracking against sales targets.
- Implemented Row-Level Security (RLS) with dynamic, multi-tier access control (National, Regional, Branch) using USERPRINCIPALNAME() lookup, ensuring role-appropriate data visibility across stakeholder levels.
- Integrated AI-assisted development tools (MCP servers, Claude Code) into BI delivery workflow, accelerating model iteration cycles and enabling live DAX validation directly against semantic models.

Data Analytics Consultant — Niaga Prima Paramitra

February 2024 – May 2025 · Jakarta, Indonesia

- Led end-to-end BI solution delivery for Coca-Cola Europacific Partners, building integrated dashboards covering Sales Monitoring, Marketing Campaign Performance, and Executive KPI reporting using Power BI, Tableau, and SQL Server.
- Designed multi-source data models with ETL pipelines incorporating data cleansing, deduplication, and transformation logic to ensure reporting accuracy across regional and distributor-level sales hierarchies.
- Translated complex business requirements from enterprise FMCG stakeholders into scalable visual analytics solutions, managing full delivery lifecycle from requirement gathering to user acceptance testing.

Junior Data Visualization Consultant — Niaga Prima Paramitra

July 2022 – February 2024 · South Jakarta, Indonesia

- Developed sales and marketing performance dashboards for enterprise FMCG clients using Tableau and Power BI, with SQL Server as the primary data source.
- Performed structured data preparation workflows including cleansing, normalization, and validation of raw transactional datasets to ensure dashboard data reliability.
- Promoted to Data Analytics Consultant within 18 months, reflecting expanded ownership of client delivery and solution architecture responsibilities.

Frontend Web Developer & UI/UX Designer — PT. Klabat Tekno Perkasa

January 2021 – December 2021 · Indonesia · Kampus Merdeka Program

- Developed web application frontend using HTML/CSS, Next.js, and Tailwind CSS, translating UI/UX prototypes into fully functional, responsive interfaces.
- Designed and prototyped mobile and web UI/UX in Figma, building cross-functional design-to-development handoff experience that underpins current dashboard design sensibility.

KEY PROJECTS & IMPLEMENTATIONS

Data Lake & Data Analytics Implementation — Kapal Api Group

Mar 2026 – Present

- Designed and implemented end-to-end analytical data models within the enterprise Data Lake architecture.
- Developed 6 operational reports and 2 executive dashboards in Power BI, enabling interactive data visualization, KPI tracking, and streamlined analytics for business stakeholders.

Skills: Data Modeling, Microsoft Power BI, Data Lake, Analytics Engineering

Expansion and New Cluster Smart Telecom — Smartfren

Mar 2023 – Apr 2023

- Conducted the migration of the data source from the MTRASS database to the MFR database, while ensuring the continued functionality of the Tableau Server and verifying that all existing workbooks are accurately connected to the updated data source.

Skills: Tableau, Tableau Server

Wholesaler Report Power BI — Coca-Cola Europacific Partners

Feb 2023 – Mar 2023

- Developed a data model with a star schema approach for the Wholesaler Report.

Skills: Microsoft Power BI, Data Modeling

Tableau Front-end Development — Weekly RED ROAM Sales Report, Coca-Cola Europacific Partners

Sep 2022 – Jan 2023

- Developed a data model and report covering 10 reports across MT and MIC categories, ensuring each report met user requirements.

Skills: Data Modeling, Reporting, Tableau

EDUCATION

Bachelor of Computer Science — Information System

Universitas Klabat · 2018 – 2022

Bank of Indonesia Scholarship Awardee (GenBI) · 2021 – 2022

CERTIFICATIONS

Data Engineering & Orchestration

- Astronomer Certification for Apache Airflow 3 Fundamentals — Astronomer · Sep 2025

Business Intelligence & Power BI

- Microsoft Certified: Fabric Analytics Engineer Associate — Microsoft · Aug 2026
- Optimize a Model for Performance in Power BI — Microsoft · Jan 2023
- Get Started with Tableau — Author — Tableau · Feb 2025

AI, Cloud & Developer Tools

- Claude Code 101 — Anthropic · May 2026
- Claude 101 — Anthropic · May 2026
- IBM watsonx.ai Technical Essentials — IBM · Jan 2025
- IBM watsonx Essentials — IBM · Jan 2025
- AWS Academy Machine Learning Foundations — AWS · Feb 2024
- AWS Cloud Quest: Cloud Practitioner — AWS · Jan 2025
- Build Real World AI Applications with Gemini and Imagen — Google · Feb 2025
- Data Processing Professional Academy — Digital Talent Scholarship — Kominfo · Mar 2024
